

Artist Guidelines

Be Creative

Artsenta is a creative space. Everyone is expected to be actively engaged in creativity while here. Ask staff if you need help getting started or want to try something new.

Enjoy the Process

As a strength-based service we focus on what you can do rather than what you can't. Making mistakes is okay as it means you're learning what works. Take time to enjoy the creative process!

Be Respectful

As a shared space we have to balance everyone's needs. Please respect other artist's privacy, the limited nature of Artsenta materials and staff decisions made in the interests of everyone.

Keep it Non-Clinical

We are here to support your wellbeing but we are not a space for clinical discussions or crisis support. Staff are happy to provide information on other support services if you need them.

Take Care

It's not okay to come to Artsenta if you're a risk to yourself or others. If staff think you're not physically or mentally well enough to be at Artsenta, we may ask you to leave.

Stay Safe

Artsenta is a drug, alcohol and smoke-free environment. We have zero tolerance of harassment or violence of any kind. Keeping Artsenta a safe space for everyone is our top priority.
